From A. Woodward, M. D., or Pexs. In the treatment of Seminal Weakness, or disarrangement of the functions, produced by welf abuse or excess of venery, I do not know his superior in the profession. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objections ble matter, and no purent, however fastidious, eto placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and 'with too little breath to puff,' and 'too little presumption to impose,' he has offered to the world at the merely nominal price of 25 cents, the fruits of some twenty years most successful practice "—Headd.

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, murnification and sorrow to the youth under their charge. —People's Advertic.

A Presbyterian clerge man in Ohio, in writing of "Hunter's Medical Manual, says.—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollminin without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising families have been cufeebled, if not broken down, and they do not knew the exists or the cure. Anything that can be done so to calighten and influence the public mind as to eleck, and ultimately to remove this wide spread source of human wretchedness, would confor the greatest blessing next to the religion of Jesus Christ, on the present and coming generations, intemperance (or the use of intoxicating drawks,) though it has shin thousands upon thousands, is not a greater scourge to the human race. will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, it you continue to neglect vortreelf, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, backing Cough will set in, and when you raise anything it will be a thick and vellowish, or white frothy matter, streaked, portugs, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Heetic Fever, Cold Chilis, Night Swears, Copous Expectoration, and then Great Prostration. If you still neelect yourself, a few weeks or months will see you consign neglect yourself, a few weeks or months will see you consign

CONSUMPTION did its work, and hurried you tway.—
Friend! have you no cause to be alarmed? In the above
sketch you may see as in a glass, how every case of Consketch you may see as in a glass, how every case of Con-sumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatable insten-tion to the substance of the Lungs, exciting there the formation of tabercles. Another, and another cold added feel to the forms out these tubercles becan to soften and suppurate fame, until these tubercles began to soften and suppurate caving, by their ulceration, great cavines in the Lungs. At his crass, the disease is very difficult of care, and oftentime sets at defiance all human means.

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comforta-de, and protong his life, and make the patient more comforta 'le, and protong his life, and is therefore worthy of a trial,—but in its incipient or forming periods, Consumption is as curable as any other disease, and 'Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagua," if taken at this time, will cure it 2-07 AS SURELY AS IT IS TAKEN 1 4-2. This is strong language, but we can refer you to numberless living witnesses to prove that it is TRUE. And therefore, we earnestly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not "let it alone" to work mischief in your system, but eradicate it thoroughly, at once, by this power, fully healing compound and leave your Langs uninjured, to carry you in full rigor to a good old age!

MOTHERS!

Have you delicata, weakly children, who are always taking cold, and subject to Croup? Remember: There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning. Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest not until the caugh is entirely subdued. We conscientionsly aver, after the most extended experience, that if this advice were followed no child need ever

PHILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR KINKELIN. The oldest, surest and best hand to cure all forms of secret discusses of the skin, and solitary habits of youth, is DR. KINKELIN, N. W. corner solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which less seach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing any with the boy to manhood, and which, if not abundened in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this pernicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unnecountable feelings, vague lears in the mind. The individual becomes feeble, he is unable to labor with accustomed vig. or, or to apply his mind to study, his step is tarde and weak, he is dull and irresolute, the countenance is downcast, the ever without natural histre, shanefacedness is apparent.

These are apparents which should awaken the attention of these similarly officied.

These are symptoms which should awakes the attention of these similarly officied.

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shamehim, producing mental and physical prostration. If he ematcipate himself before the practice has done its worst, and enter marriagony, his marriage is unfruitful, and his senses tell him that this is caused by his early follies.

Too many finite they will have the secret to their own. Too many think they will bug the secret to their own bearts, and cure themselves. Ains! how often is this a fatal delusion, and how many a promising youth, who might have been an ornament to society, has failed from the earth! Young Men!—Let no false modesty deter you from making your case known to one who, from education and re-spectability, can alone befriend you. He who places himself

DR. MORSE'S INVIGORATING CORDIAL, a Phonomenon in Medicine.
Health Restured and the Lengthened, by
DR. MCRSE's INVIGORATING LIXIR OR CORDIAL DM. MCRSE'S INVIGORATING BLIXIR OR CORDIAL For conturies, Madical mience has been ran-acting the vegetable and unneral kingdoms, in search of something that should restore the lost or decaying energies of the nervous and muscular systems, without the drawbook of subsequent prostration, whice all stimulasts, isnies, and narcolles had heretofore entailed. That something has been found. It is a vegetable production, brought from the storile descrit of Arab a the Stony, by the celebrated Professor M. Morse, well known as a distinguished member of the indiag actually societies of the Old World, and equally distinguished as a physician, a chemist, and a raveler. The jutees of this berth, congentrated and combined with other vegetable medicinal

physician, a chemist, and a reveler. The fulces of this bern, concentrated and combined with other seguiable medicinal extracts, are now producing results heretofore unheard of in this or any other country. At first the properties attributed to Prof. MORSE'S INVIGURATING RAININGR CORDIAL were deemed fabulous. The public other decived could not believe the simple and sublime truths amounced by the discoverer. But here, undeniable facts attested by witnesses of the highest class and character, are now ri-umphing over all doubts. INUREDULITY IS OVER-THIOWN, by a mass of testimony which is perfectly tree-

The Euria remedies, in all cases, the deplorable ovils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every deficate function connected with that all attentions compound agency of matter and mind, necessary to the re-product on of numes life. To persons of feeble miscular frame, or dedicient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetities, as well as the ingree mental autiflutes. Its beneficial effects are not confided to either sex or to any age. The feeble girl the ailing wife, the lists as, ernevated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renovator.—To those who have a predisposition to paraly-is it will prove a complete and unfailing sine-goard against instearible malady. There are many, pechaps, who have so writted with their constitutions, that they think themselves beyond the reach of neelicine. Let not even these despit. The kilkir deals with disease as it exists, without reference to causes, and will southly remove the disorder itself, but The Euria remedies, in all cases, the deplorable ovils

and will set only remove the disorder itself, but Rebuild the Broken Constitution. Rebuild the Broken Constitution.

The derangements of the system, leading to nervous diseases, and the forms of nervous diseases, and the forms of nervous diseases itself, are so summer out that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, virt neuralgia, its delereaux, hendache, incipiest paralysis, hysteria, pulpitation of the heart, spinal affections, nucedur debuilty, tremors, finin-lence, a pricking sensation in the feeth, numbers, torpadity of the liver meant descent lence, a pricking sensation in the flesh, numbers, torpudity of the liver, mental depression, weakness of the will, indie position to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, disor albus, sinking at the stamach, femnie trogularities, a chronic leadency to miscarriage, emiscistion, and all complaints growing out of a free indusgence of the passions, and all barranness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from mal-formation or strictural diseases it is avorred that Morse's invigorating Elizir. will replace weak ocus with strength, incapacity with efficien cy, freegolarity with un form and natural solivity, and this not only without he zard of reaction, but with a happy effect on the general erganization. ** Bear in mind that all maindies, whorever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is physical centh. Bear in natural size, that for every kind of nervous disease the Kitar Cordini is the only reliable preparation known.

Cure of Nervous Diseases. No language can convey an adequate idea of the immediate and almost mirrorulous change which it occasions in the diseased, debditated and shattered nervous system, whether

diseased, debettated and shattered nervous system, whether broked down by sexess, weak by nature, or impured by sickness, the unstrung and relaxed organ ration is at once or need re-vivified and built up. The mental and physical symtoms of nervous disease vanish regether under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and resione it to its normal condition.—Well may the preparation be called the Medicinal Wonder. of the nincteenth century. It is, as the first-scientific man in the world would have admitted, that miracle of medicine heretof-re-supposed to have no existance.

A Stimulant that Entails No Re-Action. Its force is never expanded, as is the case with opium, alco-holic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them, "The last state of that man is worse than the first". But the blixir is an exhiberant without a single-drawback—safe to its operation, i erpotusi is its happy influence upon the nerves, the mind, and the endre organization; it will also remove de-pressions, excitement, a tendancy to blush, sleepiessness, dislike of society, incapacity for study or business. The unparalleled efforts of this great restounive, in all complaints incident to females, mark a new era in the music of medicine. Thousands of stimulants have been invested—thousands of invigorants conceded—all purporting type specified in the various observes and derangements to which the delicate formation of woman render her linkle.—The result has bettle one been uniform. These nontrains have indeed imparted a momentary vivacity to the nervoes system, a transient and delicave vigor to the muscles; but this flash of relief has been succeeded by a degreesion and proseration greater than before, and the end has two often been unterly to parally a the recogerative power of the nerves and the vinil organization, and flustly to desirely the unampty patient.
